

RANKO OSTOJIC

Front-End Web Developer

ranko.ostojic@gmail.com

<https://github.com/Ralence>

Profile

I enjoy working with JavaScript on the front end, especially with React. I'm also fond of Redux and React Native. At the moment I am working for a company called gigaaa on creating and maintaining a chat plug-in for Gigaaa AI personal assistant, also with react and redux under the hood.

Education

Udacity

Front-End Web Developer Nanodegree graduate

React Developer Nanodegree graduate

University of East Sarajevo

Bachelor Degree in English Language and Literature

Related Experience

Currently working for gigaaa as a full time front end developer. Previous related experience includes around two years of freelance, hobby and learning project in the front end field.
